

Technology Leader

Looking to start a new career with an exciting foundation?

We want the best. Are YOU that Person?

Here's What the Successful Candidate looks like:

CDHF needs a Technology leader to set up and lead our Technology Centre of Excellence. We're looking for someone with a start up, hands-on mentality as CDHF is entering a new phase of our history and intends to blaze new trails. You are an architect who is able to understand complex problems and develop solutions that will put CDHF at the forefront of technology, not just in Canada, but the world.

As CDHF goes global, we will require a specialist who understands what is necessary to build an international presence leveraging web, mobile, apps, big data and Artificial Intelligence (yes, AI). This is a unique opportunity to build the right infrastructure - the first time.

Our entire team is committed to increasing our reach to 5 billion strong. You bring a diverse technology background with senior management experience and you can bring new ideas to the table. You understand technology and methodology practices and you are confident in leading its direction and execution. You have experience managing internal and external stakeholders. Create the right team and make it happen.

Candidates with IBM Watson experience are preferred and your ability to bring your vision into tangible, scale-able enterprise solutions is what we need.

Bleeding edge technologists should apply.

If you're an architect with a start-up, hands on mentality, do not send us your resume. Instead wow us with something you have accomplished to support your application at careers@CDHF.ca.

Providing VALUE Through Excellence.
